

Take advantage of financial instruments
that are otherwise reserved for the super-rich.

Starting from just \$50.

“

People do not understand our banking and monetary system.

If they did, I believe there would be a revolution before tomorrow morning.

Henry Ford

WHAT IS MONEY ACTUALLY...?

Money basically has no value. Everything is based on trust through the promise that tomorrow you will get the same for it as today. The truth is: Money can lose its value overnight. And that wouldn't be the first time in history. Money merely serves a system.

Money can lose its value overnight. It essentially comes from nothing. Money only exists when debts are created. In other words: Money is nothing more than debt. One person's debt is another person's asset.

When you sign a loan agreement with a bank, an agreement is made that you owe the bank money. The amount is credited to your account, and you can use it, but the bank only has a piece of paper where you signed a promise to repay the money, plus interest, at a specific time.

But the bank never had the money. It only exists in the books. Your loan agreement now serves as the bank's asset. If you want to go shopping as a private person with such a contract, where you have a note saying a friend owes you \$100, and you want to use this contract as a form of payment. Do you think that will work?

Banks are allowed to do this. And not just for small loans to consumers, but also for financing large projects and even government bonds. That's why banks are systemically important.

Money is simply "created." It's printed paper with a promise. Nothing more.

HOW TO PROTECT YOUR MONEY FROM LOSING VALUE?

The world is in upheaval, and we are living in economically uncertain times. The US dollar is no longer backed by gold, as it was until the early 1970s. The agreements between the US and Saudi Arabia for oil trade in US dollars ("petrodollars") have expired and were not renewed. At the same time, the BRICS countries (Brazil, Russia, India, China and South Africa) are emerging, ushering in a new era with a gold-backed digital currency. Possibly signaling the end of the US dollar as the world's reserve currency. In Western countries, this could lead to a new super-crisis. Highly speculative financial and real estate bubbles, built on fragile foundations, could burst. As a result, there is a real risk that stock markets, economies, and currencies could collapse. Not only in the US, but also especially in Europe. What will the US dollar or the euro be worth then, if ever more money is printed to compensate? Money that has no intrinsic value. It wouldn't be the first time in history that money has become worthless overnight. It's foreseeable that the next crisis will come.

Are you prepared to protect your savings from possible hyperinflation?
What can be done to avoid losing value in your own money?

Gold has proven itself as a crisis-proof currency over centuries. It protects against devaluation, but offers little potential for short- and medium-term returns. Real estate is simply immobile. This means that, in case of need, it may be difficult to realize the right price at the right time. However, it is suitable as a tangible asset for long-term asset accumulation, inflation protection and tax optimization. Stocks are also not protected from devaluation in the event of a global economic crisis but offer the tangible value of owning a stake in the economy. After a speculation period, realized gains may even be tax-free.

The cryptocurrency market is still young but offers the advantages of a decentralized, independent currency. However, the only cryptocurrency that is truly independent is Bitcoin — the mother of all coins.

HOW TO INCREASE VALUES AND ASSETS?

Let's talk frankly: you won't become wealthy by hard work alone. It takes an additional path to generate passive income or make your money "work" for you. The more you have, the easier it becomes to make more from it. You should spread your investments as widely as possible. It has never been a good idea to put all your "eggs" in one basket. That would be far too risky. So, what options are there for "average" people who don't have large fortunes?

The traditional savings account will not make you rich. By now, that should be clear to everyone. It does offer security, but when considering inflation, the money will lose value in the long term. With 1%, 2%, or 3% interest per year, you won't be able to grow your wealth. The same is true for money market accounts, life insurance policies, or building savings contracts, which primarily serve other interests. Taking wealth generation into your own hands is possible even from home in today's time (with trading for example). But if you don't do it professionally, in the worst case, everything could disappear overnight. Trading always goes along with high risks.

Generally, the higher the promised returns, the greater the risk. But the fact is that your bank earns much more with your money than what they give back to you.

We would like to introduce you to a way to benefit from financial instruments that banks also use, and which you can trust because we use them with experience and the utmost care. With promising returns, but still on a solid foundation.

We can assure you that we have made the security of our members our highest priority in our planning. We combine modern strategies with self-developed artificial intelligence and conservative approaches that have proven themselves over decades. This has resulted in an exciting project that we offer exclusively to the members of our community.

WHAT ARE THE SUPER-RICH DOING DIFFERENTLY...?

Do you really believe that the super-rich put their money in a savings account and are satisfied with an annual return of 1% to 3%? Remember? The wealth of the richest 5% doubled in 2021 during the pandemic – while the masses lost money. A doubling in just one year? How is that possible in times of crisis?

Rich people don't earn money. They invest it. They invest it in companies, create real estate assets with debt, speculate in high finance, use leverage to exploit financial instruments offered by banks, and avoid paying taxes by forming global corporate networks.

So why doesn't everyone do it? There are several reasons. First: knowledge. We learn in school how to become employees and take our earned money to the bank. The banks then work with this (your) money. They can lend or invest 10 times what you make available to them. We don't learn how to become entrepreneurs. We also don't learn anything about the monetary system. That's the banks' job. In other words, we are deliberately kept ignorant while those in the know earn money with our money. It's important to understand this "game."

Secondly, it requires capital. The more funds are available, the greater the opportunities. That's why it's easier for the rich to get richer while the masses are fleeced.

We want to change that and make the masses "players." As individuals, it is almost impossible to build up large fortunes. But when a large number of people come together, completely different opportunities arise to achieve similar returns to the super-rich. That is why we founded the NEXIUM community, which, with our own bank, paves the way to benefit from the financial instruments of the super-rich.

Warren Buffett
US investor

Seven times in just five years. So, it is possible? The fairy tale that everything that offers more than 7% per year is dubious is simply not true. We are just constantly told that. If you have the knowledge – and the right financial instruments – much more is possible.

NEXIUM IS OFFERING YOU ACCESS TO RARE TOOLS

NEXIUM is a platform that offers you access to the financial instruments of the super-rich. This only becomes possible through the combined strength that comes from bringing together a united community. Normally, something like this would only be possible with significant investments that ordinary people could never afford. NEXIUM has set itself the task of developing a system that enables average people to benefit from the same results.

NEXIUM has brought together strong partners who make all this possible.

This merger is unique and not only provides access to high-finance products for everyone, but also utilizes state-of-the-art blockchain technology that creates unprecedented transparency like never seen before.

Become part of a community that breaks new ground together and that forces a collective power.

The screenshot shows the NEXIUM website interface. At the top, there is a navigation bar with links for Home, About, Faq, and Contact, along with a search icon and a Login button. The main header features the NEXIUM logo and the tagline "THE POWER OF A GLOBAL COMMUNITY". Below this, a list of benefits is displayed:

- Fixed-term deposit account with guaranteed 14.5% per year
- Powerful wealth building program starting with only \$50
- Massively accelerate the results through accumulated participation
- VISA and MASTER card solutions with exceptionally high limits
- Licenced and regulated partners with stable long-term results

To the right of the list, there is a graphic of a stylized human figure holding a glowing sphere with the NEXIUM logo. Above the figure, the text reads "Take advantage of high-end financial instruments". At the bottom right, it says "Supported by a new generation of AI".

Powerful partner that makes this project possible

Initiator

Bellver Market LLC

Official operator of the NEXIUM platform
Company number: 400440260
License number: TFZ / 230725/01

Scope of license:

- International asset management
- Issuance of electronic money
- FX and CFD brokerage

Bellver Market LLC is a specialized financial services provider focused on serving major international clients. The company has extensive expertise in structuring, managing, and implementing complex trading and investment strategies for institutional investors, family offices, and high-net-worth private clients. With NEXIUM, Bellver enables small investors and investors with lower entry sums to access professional return profiles that are otherwise reserved exclusively for institutional investors.

Banking processing

WAGO Bank Ltd.

WAGO Bank Ltd. acts as a strategic banking partner for the NEXIUM product.
License number: L16117/WB
License status: Full bank
License registry: Anjouan Offshore Finance Authority
Company headquarters: Union of the Comoros

www.wagobank.com

WAGO Bank is an international private bank with a strong focus on investment banking and international securities trading. Its core clientele consists of institutional investors, major clients, and companies that need access to global capital markets. As a full-service bank, WAGO Bank acts as the infrastructure partner within the NEXIUM framework. It provides account management, payment processing, and the banking regulatory infrastructure required to implement the product. In addition, the bank offers a high degree of transparency, as its license data and registrations are publicly available. This creates trust and underscores the bank's integrity.

RESULTS TO DATE

Here is an example of one of the managed multi-accounts, which are divided into 3 risk levels. In the period September 2024 to August 2025 a profit of 167% was generated. In this case 80% was used in the highest risk level.

For customers and members of NEXIUM a much safer variant is chosen: the deposited funds are distributed equally across all 3 risk levels. However, since the bank can use up to ten times of the deposited funds, a multiplication factor arises which is used conservatively to avoid excessive risks: we use only from 2 to 5 times.

This means for NEXIUM participants: the bank adds money to your investment.

Thus, a result is created that you could never achieve by yourself alone.

Please note: past performance is no guarantee of future results.
Future results may vary or even result in losses.

Period: September 2024 – August 2025

Executive Summary / Comparison of results (divided into three risk areas)

Account	Start Equity	End Equity	Total Return	Avg Monthly	Volatility	Sharpe	Max Drawdown
Conservative (100k)	100,000	136,716	36.72%	2.70%	3.61%	2.59	-2.73%
Balanced (500k)	500,000	828,810	65.76%	4.57%	7.80%	2.03	-13.45%
Aggressive (2.5M)	2,500,000	7,311,947	192.48%	10.45%	15.76%	2.30	-33.61%

Equity curves (normalized = 100)

TWO OPTIONS TO JOIN

NEXIUM offers you two options to benefit from these results: a fixed-term deposit account with guaranteed interest, or a build-up program that means a higher risk level, but with the goal of building up a considerable fortune in just a few years.

Alone this would never be possible. But if you help the community become bigger – and thus stronger – you can achieve something extraordinary here in the shortest time.

1 FIXED-TERM DEPOSIT ACCOUNT

Term: 360 days

Minimum investment amount: \$5,000

Maximum investment amount: \$100,000

Guaranteed performance: 14.5% per year

14.5%

2 WEALTH-BUILDING PROGRAM

Our wealth build-up program pursues the goal to build up a fortune of one million dollars within only a few years. For this, various entry packages are available – starting with only 50 dollars. Each of these packages (“Deals”) has a term of 3 to 4 years. The term depends on the actual realized performance, which can vary from month to month. When a deal is completed, from “DEAL 2” on you can use the result to purchase the next package without using own money anymore. The goal is 1 million dollars with “DEAL 6”.

DEAL 1 \$ 50 TERM: 3 – 4 years RETURN: \$ 100	DEAL 2 \$ 1,000 TERM: 3 – 4 years RETURN: \$ 3,000	DEAL 3 \$ 3,000 TERM: 3 – 4 years RETURN: \$ 10,000
DEAL 4 \$ 10,000 TERM: 3 – 4 years RETURN: \$ 40,000	DEAL 5 \$ 40,000 TERM: 3 – 4 years RETURN: \$ 200,000	DEAL 6 \$ 200,000 TERM: 3 – 4 years RETURN: \$ 1,000,000

OUR AFFILIATE PROGRAM

You can shorten the period of the wealth-building program considerably. Under certain circumstances possibly even to only 2, 3, or 4 years – instead of 15 to 20 years from “DEAL 2” to “DEAL 6”, if you use the program without building a team or without any recommendation. “DEAL 1” is created for those who don’t have the money to start with “DEAL 2” but want to build a team.

If you help the community grow and recommend NEXIUM, you become a referrer and receive immediate commissions. This will help you purchase one of the next larger packages much more quickly without having to invest any more of your own money. The commission payments can be so high that you may even be able to skip a few package levels. With just 10 people purchasing the same package as you, you will have already recouped your investment. From then on, everything that follows is pure profit for you.

At no time is there any obligation to purchase a package or any requirement to recommend the program to others. You can also opt out at any time, terminate the program after completing a package, and receive your full profits. You can also purchase a new package of your choice at any time in the future. But if you recommend NEXIUM to others and build a team, you can significantly accelerate your progress toward building a million-dollar fortune.

Even if you have not purchased a package yourself, you will receive commissions on the packages purchased by people to whom you have recommended NEXIUM. However, if you have purchased at least “DEAL 1” yourself and recommended NEXIUM to a total of 7 people, you will receive commissions up to 7 levels deep. This can result in considerable amounts.

PAY PLAN OVER MAX 7 LEVELS

Example: suppose you decide on package “Deal 1” yourself. How many levels you receive commissions on depends on the number of persons you have personally referred in your first level each with a package “Deal 1” minimum. With 1 person it remains at the first level. With 2 new members it will be 2 levels – and so on. If you have referred a total of 7 new members, you receive commissions across the full 7 levels.

Let’s assume you personally recruit 7 new members – which means: you’ll benefit from all 7 levels. And let’s say all other participants will bring on average only 2 new members each. Then these are your shares of the respective revenues:

In your first level – that’s for the revenue of the participants you personally recruited – you receive 10% immediate commission. Same in the second level: 10%. In all other levels it is 5% each.

A simple, straightforward plan without any hidden conditions bonus requirements. You receive a commission immediately after purchasing one of the packages which is at your free disposal and which you can also withdraw immediately – any time.

Same commission for all packages - including the fixed-term deposit account.

TEAM BUILDING

Personally recruit 7 new participants

All others recruit 2 new participants on average

Calculation example

7 participants in level 1	x sales \$ 50	= total sales \$	350	10% commission =	\$ 35 for you
14 participants in level 2	x sales \$ 50	= total sales \$	700	10% commission =	\$ 70 for you
28 participants in level 3	x sales \$ 50	= total sales \$	1,400	5% commission =	\$ 70 for you
56 participants in level 4	x sales \$ 50	= total sales \$	2,800	5% commission =	\$ 140 for you
112 participants in level 5	x sales \$ 50	= total sales \$	5,600	5% commission =	\$ 280 for you
224 participants in level 6	x sales \$ 50	= total sales \$	11,200	5% commission =	\$ 560 for you
448 participants in level 7	x sales \$ 50	= total sales \$	22,400	5% commission =	\$ 1,120 for you

Total commission income:

\$ 2,275

\$350 sales in your first level. Your commission: \$35

\$700 sales in your second level. Your commission: \$70 (= return of invest)

If this duplication continues to the 6th level, there will grow a total of 441 participants in your team over time. Your total commission here is then \$1,115. This means you are now in a position to purchase the package “DEAL 2” simply with your commissions. Another \$1,120 will be your commission from the 7th level. That’s already your profit.

When you start with “DEAL 2,” of course you can reach the target of \$1 million much faster. However, if you don’t have any money, you can at least start with “DEAL 1” and an investment of only \$50 to build a team, and then continue with “DEAL 2” using the commissions you earn without investing any of your own money.

Without own package, you only receive commission for personally referred participants (level 1)

TEAM BUILDING

Personally recruit 7 new participants

All others recruit 2 new participants on average

Calculation example

7 participants in level 1	x sales \$ 1,000	= total sales \$ 7,000	10% commission =	\$ 700 for you
14 participants in level 2	x sales \$ 1,000	= total sales \$ 14,000	10% commission =	\$ 1,400 for you
28 participants in level 3	x sales \$ 1,000	= total sales \$ 28,000	5% commission =	\$ 1,400 for you
56 participants in level 4	x sales \$ 1,000	= total sales \$ 56,000	5% commission =	\$ 2,800 for you
112 participants in level 5	x sales \$ 1,000	= total sales \$ 112,000	5% commission =	\$ 5,600 for you
224 participants in level 6	x sales \$ 1,000	= total sales \$ 224,000	5% commission =	\$ 11,200 for you
448 participants in level 7	x sales \$ 1,000	= total sales \$ 448,000	5% commission =	\$ 22,400 for you

Total commission income:

\$ 45,500

\$7,000 sales in your first level. Your commission: \$700

\$14,000 sales in your second level. Your commission: \$1,400

In your third level in this example 28 new participants arise. Here you now receive another \$1,400. With the summary alternatively, you can already purchase the next larger package, which is "Deal 3". Without building a team you would have had to wait 3 or 4 years for it.

If all 889 partners in your team, who also started with just \$50, are able to invest \$1,000 in "DEAL 2" over time, then this means you have not only recovered your own investment and also already bought the third package, but have additionally also earned over 40,000 dollars. Under certain circumstances all this can happen in only a few months.

Without own package, you only receive commission for personally referred participants (level 1)

TEAM BUILDING

Personally recruit 7 new participants

All others recruit 2 new participants on average

Calculation example

7 participants in level 1	x sales \$ 10,000	= total sales \$ 70,000	10% commission =	\$ 7,000 for you
14 participants in level 2	x sales \$ 10,000	= total sales \$ 140,000	10% commission =	\$ 14,000 for you
28 participants in level 3	x sales \$ 10,000	= total sales \$ 280,000	5% commission =	\$ 14,000 for you
56 participants in level 4	x sales \$ 10,000	= total sales \$ 560,000	5% commission =	\$ 28,000 for you
112 participants in level 5	x sales \$ 10,000	= total sales \$ 1,120,000	5% commission =	\$ 56,000 for you
224 participants in level 6	x sales \$ 10,000	= total sales \$ 2,240,000	5% commission =	\$ 112,000 for you
448 participants in level 7	x sales \$ 10,000	= total sales \$ 4,480,000	5% commission =	\$ 224,000 for you

Total commission income:

\$ 455,000

Gradually your team members will also arrive at "DEAL 4" over time and will now also be able to invest 10,000 dollars for the 4th package. Remember: solely when the already existing members gradually also purchase "Deal 4", you will receive again an immediate commission on this amount.

\$70,000 sales in your first level. Your commission: \$7,000

\$140,000 sales in your second level. Your commission: \$14,000

In your third level: another \$14,000 for you. Alternatively, you can already purchase "Deal 5". Or you wait until you have earned a total of \$455,000 and will be able to buy "DEAL 6" already - with a return of 1 million dollars. The second half (\$245,000 again) is already pure profit for you.

Without own package, you only receive commission for personally referred participants (level 1)

HOW ARE THE PROFITS GENERATED?

Mainly through short- and medium-term trading strategies in all areas: forex, crypto, but also gold, stocks, and others.

That's not magic. It is the power of the community and the effect of compound interest combined with valuable knowledge and access to modern financial instruments as well as new opportunities of our time – such as support through AI.

Developments like the ones just seen could never be achieved alone. NEXIUM was developed to give you the chance to use such high-finance products as well.

And the only reason why we are able to offer you to be part of it is simply because the required investment amounts come together through the community. Not right at the beginning – but over time...

167% profit per year on average in the last 3 years

Plus, the leverage of WAGO Bank with a factor of 2–5. This provides sufficient leeway and safety reserves to fulfill the plans. Customer deposits are additionally secured by WAGO Bank.

PROTECTION FOR YOUR DEPOSITS

NEXIUM secures all deposits of its members 100% – guaranteed by the WAGO Bank. That means no loss risk for you or for the members in your team.

We cannot promise that we will achieve the same results in the future as in the past. Nobody has the crystal ball and can make promises years in advance. But the most important thing is: you cannot lose money but still earn commissions.

- No obligations to purchase any package at any time
- Recommendation or team building is not a requirement
- Withdrawals available at any time without restrictions
- Documentation in accordance with legal regulations

100% deposit protection

WAGO
INTERNATIONAL BANK

www.wagobank.com/nexium/bg

DEPOSITS

Deposits can be made easily with crypto payments.

We have chosen Tether / USDT as the payment solution to make it uniform internationally. This is the fastest, easiest, and most cost-effective processing. Deposits over \$10,000 require KYC as well as proof of the origin of funds (AMLA).

In countries connected to the SEPA or SWIFT payment systems, deposits can also be made via bank transfer. You will receive your own account in your name.

WITHDRAWALS

All payouts (returns on investments, earnings, and all commissions) are made using Tether / USDT as well.

With other words: USDT in – USDT out.

What is the advantage for you?

USDT is a very flexible stable coin that 1:1 corresponds to the value of the US dollar. So, no complicated currency conversions and no unknown tokens whose value can vary greatly. That means stability and reliability for you.

If you wish,
we can also p
you out in Bit

Through our partnership with Fireblocks, your digital assets are managed with institutional-grade security using MPC technology and strict governance controls. This ensures maximum transparency, protection, and flexibility for receiving and handling USDT payouts. Of course, you can also transfer your USDT to any external wallet of your choice at any time.

www.nexium-card.com

Take advantage of our VISA or Mastercard, to which you can transfer your USDT and then use the balance to pay worldwide in any local currency in stores or online, or withdraw cash from any ATM. It couldn't be easier.

● Do I need crypto and a wallet to make a deposit?

Yes, in order to be flexible internationally, deposits in the best way will be made with USDT (TRC20). If you do not have crypto or a wallet, you can make a bank transfer for your deposit if you have access to SEPA or SWIFT payment systems.

● Do I need a crypto wallet for the payout?

Yes, a crypto wallet is required for the payout. You can use it to receive your USDT and make transactions. Any USDT wallet (e.g., TRC20) or provider of your choice can be used. If wanted, we're offering a solution for you.

● Will I receive a bill and documentations?

Yes of course. You can download and print out your entire history for a specific time period (e.g., monthly or annually) in your back office. This will show you how much you have invested, what profits you have made, and how much commission you have earned. This provides you with all the necessary documentation.

● Do I have to pay tax on the income?

We are not permitted to comment on tax issues. As tax laws vary from country to country, we are unable to provide any general information on this matter. In principle, you are of course obliged to report all income (usually worldwide) to your local tax office. A distinction must be made between profits from investments in your own DEAL packages (capital gains tax) and commissions generated by any referrals (income tax). In most countries, different tax rates apply to each of these. If in doubt, we recommend consulting a tax advisor or tax attorney.

● Do I need to register a business?

No, you do not need a business license to make a profit on your own packages. Even if you become a referrer by recommending NEXIUM and receiving commissions for doing so, you do not need a business license as long as this does not become your main or regular secondary occupation. In any case, however, you must declare both types of income on your income tax return.

● How secure is all this?

Unfortunately, there is no such thing as 100% security anywhere – especially not in trading. We have to face the reality that this program may end at some point. That depends on developments and market conditions. It cannot be ruled out that changing laws may require corresponding adjustments. However, we have ensured through bank-guaranteed protection that it is virtually impossible to lose your money. This is one of our top priorities. In the worst case, you will get your investment back. In the best case, you will become wealthy.

● Is there a possibility of losing the deposited money?

Should external circumstances have an impact (such as force majeure, natural disasters, war, the collapse of all stock markets, or the global economy), then it would theoretically be possible for a total loss to occur. Nevertheless, we have implemented a solid hedging system and are building up additional hedging reserves in parallel with developments, so that at least your investment is always protected. Humanly speaking, there is nothing more that can be done. If you consider the risk too high with a minimum investment of at least \$50, we would strongly advise against participating for ethical reasons.

Legal notice

This presentation is intended solely for informational and educational purposes. It does not constitute legal, financial, or tax advice and does not include any recommendation or solicitation to purchase financial instruments, investment assets, or any other products. All content is purely informative and non-binding.

Where this presentation refers to participation in services, IT platforms, or projects, such references are made exclusively for the purposes of training and information sharing. It is expressly stated that no advisory service, brokerage, or solicitation to act — whether directly or indirectly — is being provided.

Each participant acts solely on their own responsibility and at their own risk.

No claim for compensation, damages, or reimbursement of any kind may be made for decisions or actions taken by a participant based on this presentation — except for statutory deposit guarantees applying to funds actually deposited with Nexium (the applicable guarantee limit is subject to regular adjustment).

Nexium is not a financial services provider but a community platform that offers its members access to digital products and services from third-party providers. Participation or membership does not create any financial obligation or commitment to purchase.

No guarantees, assurances, or promises are made regarding profits, income, commissions, or any other form of return. All examples shown are hypothetical, serve illustrative purposes only, and do not constitute forecasts or expectations. Past performance is not indicative of future results and cannot be guaranteed.

Participants expressly acknowledge and confirm that:

- they are fully aware of the high risks, possible volatility, and the potential for a total loss of capital,
- they only invest funds they can afford to lose, both financially and personally,
- they will seek independent professional advice (e.g., from tax advisors or legal counsel) in case of any doubt before participating.

Optional activity as a referrer:

- Engagement as a referrer (tip provider) is entirely optional and subject to specific obligations:
- Referrers must act truthfully, objectively, and without making any misleading or exaggerated statements.
- Minors, persons lacking legal capacity, or individuals who are inexperienced, vulnerable, or easily influenced must not be solicited, approached, or pressured in any way.
- Any income or profit derived from referral activities must be declared independently and responsibly by the participant in accordance with applicable tax laws.

Participation in this presentation constitutes explicit acceptance of all the above terms and conditions. Any use or dissemination of the content is at the participant's own risk. Recording or reproducing the presentation in any form is not permitted. All information is provided "as is," without any guarantee of completeness, accuracy, or timeliness.

Final note: This presentation may not be publicly distributed without the prior written consent of Nexium—in particular, not on social media or video platforms. It may only be shared or shown in person. Presentations in webinars or online meetings are permitted, provided that these take place in a closed circle of personally invited participants.

Please inquire in which countries NEXIUM may be offered, as this is not possible in all countries due to differing regulations.
